PROFESSIONAL SUMMARY

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities. Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code. Detail-oriented team player with strong organizational skills. Ability to handle multiple projects simultaneously with a high degree of accuracy.

SKILLS

- Front-End
- Source Control Frameworks
- JavaScript ES6 / jQuery
- Git (Git Flow)/GitHub/Docker
- CSS / SASS/Tailwind CSS
- SCRUM / Agile
- Shopify
- MySQL / MongoDB
- PHP / Apache
- Python
- Cross-browser compatibility
- Software Best Practices
- Team Collaboration
- DevOps principles
- Algorithm Implementation
- Back End
- CMS
- Node / NPM Proficiency
- React / Redux Proficiency
- REST API / Express Proficiency
- Bootstrap
- HTML / XHTML
- JSX
- MVC / XML / JSON
- C programming
- Figma
- Library Design
- Sprint Planning
- Test-driven development
- Creative and Innovative

Freelance

- Collaborated with clients/content owners to understand their requirements, manage expectations, and develop a system/design solution for existing and new websites
- Presented new UI and templating system with Bootstrap and JavaScript to improve UX to a restaurant which helped bring in 300 more customers per month
- Advised clients to reduce page loading time of website by 20% through JavaScript compression and CSS minifier.
- Reviewed code, debugged problems, and corrected issues.
- Analyzed existing software implementations to identify areas requiring improvement.
- Developed functional databases, applications and servers to support websites on back-end.
- Worked with back-end developers to design APIs.
- Developed unit test cases for testing and automation.
- Used NodeJS, ORM and SQL/No-SQL to develop and manage databases.
- Developed and maintained microservices architectures using Docker, Kubernetes and OpenShift.
- Participated in requirements gathering to solidify prerequisites and determine best technical solution to meet business needs.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.

SENIOR SQL / SSIS DEVELOPER

01/2021 to CURRENT

Metas Solution | Atlanta, LA

- Designed and developed ETL processes using SQL Server Integration Services (SSIS) to facilitate data migration.
- Optimized existing SSIS packages, enhancing performance and reducing execution time for data transformations.
- Collaborated with business stakeholders to gather requirements, ensuring alignment of data integration solutions with organizational goals.
- Conducted performance tuning of SQL queries, resulting in improved data retrieval times across multiple systems.
- Implemented error handling and logging mechanisms within SSIS packages to improve reliability and maintainability.

LEAD SQL SERVER DEVELOPER

01/2023 to 04/2024

Rayus | Minneapolis, MN

- Developed complex SQL queries to optimize database performance and data retrieval processes.
- Implemented data integration solutions using SSIS to streamline ETL workflows across multiple systems.
- Collaborated with cross-functional teams to design and maintain relational database schemas aligned with business needs.

CYBER SECURITY SPECIALIST

01/2023 to 10/2023

I4G Alumni | Nigeria

- Monitored confidential company data and mitigated hacking through network systems updates.
- Built relationships and fostered effective communication with legal personnel to conduct practical investigations.
- Participated in team projects, demonstrating an ability to work collaboratively and effectively.
- Managed anonymous online and phone-call tips, implementing uncovered information into investigation processes to solve cases.
- Performed risk analyses to identify appropriate security countermeasures.
- Developed plans to safeguard computer files against modification, destruction, or disclosure.
- Recommend improvements in security systems and procedures.

EDUCATION

Certificate in Full Stack Web Development

Evangadi Networks, Silver Spring, MD

Full Stack Engineer

Aix Africa, Nairobi, Kenya

Certificate in Advanced React

Scrimba, Oslo, Norway.

Certificate in Cybersecurity | Cyber Security Professional

Cisco

○ **Certificate In AI Engineer**
Scrimba, Oslo, Norway.

LANGUAGES

○ English

Full Professional

Amharic

Native or Bilingual

PROJECTS

○ **Amhara Colorado App** | *Full Stack Developer*

- Developed a **membership & subscription web app** for a U.S.-based non-profit, reducing manual tasks by **70%**.
- Integrated secure **edir membership plans** and **automated payment processing** using Node.js & SQL.
- **Stack:** React, Node.js, Express, SQL

Akumite Shopping App | *Frontend Developer (Freelance)*

- Built a **responsive e-commerce website** for Akumite Inc with over **200+ product listings** and modern UI design.
- Improved page performance by **35%** through optimized React components and lazy loading.
- **Stack:** React, Tailwind CSS, REST API

Caleb Décor Website | *Frontend Developer*

- Designed and deployed a **decor company portfolio site**, increasing online inquiries by **40%**.
- Implemented **responsive layouts and animations** for better UX and brand consistency.
- **Stack:** React, JavaScript, HTML, CSS

ENM Compositing App | *Full Stack Developer*

- Developed a **full-stack internal management system** to handle projects, tasks, and reports — reducing paperwork by **60%**.
- Built RESTful APIs and authentication modules for secure data access.
- **Stack:** React, Node.js, Express, MongoDB
